Our exclusive TR VII Fish Call attracts fish with light, sonic sound, and attractor pellets

Actual photo taken during tests conducted by Jacques Cousteau's group [illegible] by the Centre [illegible] Marine [illegible] Science Oceanographique [illegible] tests prove that [illegible] fish immediately before this shot was taken there were [illegible] fish swarmed to area

Call operates 3 ways for maximum effectiveness—emits sonic sound and light and includes attractor pellets. Especially effective when all 3 techniques are combined, since all fish are not attracted by the same method.

To use, simply drop clear plastic transducer into water. One battery sends out sonic sound waves; seven-point selector dial allows you to choose desired sound frequency from 10-100 C.P.S. Second battery activates light. (Bulb is guaranteed for lifetime of fish call.) Non-toxic pellets included.

Use in both salt and fresh water. While fish call will successfully attract fish to your area, you still must use your skill to catch them.

Electronically transistorized. Control box is 1¾x2¼ inches. Operates on 2 penlite batteries, included. *"Secrets of Successful Fishing"* booklet and instructions included. NOTE: For legality in your state, check with Wildlife and Fisheries or State Conservation Departments before ordering.

TEDDY BEARS are for love...

They're a cuddly mixture of loyalty and security. For over 70 years they've been listening happily to all the childhood confidences and sympathizing quietly with the disappointments. Teddies are like that. The name "Teddy" came from a 1902 cartoon of Teddy Roosevelt refusing to shoot a bear cub. It was called "Teddy's Bear." Since then thousands of owners have discovered that a Teddy belongs in every childhood.

Your baby has a lot to learn . . and he needs your help. He's counting on you to provide appropriate tools of learning for each stage of his development. SEE DISTANT MOUNTAINS, MOON CRATERS, EVEN SATURN'S RINGS FROM YOUR BACKYARD

REFRACTOR TELESCOPES give you a great view of the and all the heavens. Light is gathered by the telescope tube by the large objective lens. Eyepiece lens magnifies this light and directs the image straight into your eye.

The larger the OBJECTIVE LENS the more light it gathers. A 60mm lens gives you a brighter image than a 50mm lens at the same power. ACHROMATIC COATED lens and diagonal mirror. The FOCAL LENGTH of the objective lens also makes a difference: the longer the focal length the more detail you can see.

Image magnification by changing EYEPIECE. A 6mm eyepiece is twice as much as 3 times more powerful than a 22mm eyepiece. As it comes an Erect Image PRISM that makes the normally inverted image appear upright.

Illustration caption: Illustration shows how you can mount lens and UV blocker that let you track moving objects without touching telescope.

1 This snow thrower is driven by an extra-powerful Briggs & Stratton fully winterized 8-hp engine with centrifugal clutch. Cuts through drifts in a breeze, because it's designed especially for heavy snow areas. It's a big twin-stage unit. Two chain-driven 10¼" diameter augers really pull in the snow. 2nd stage, 13¼" diameter impeller then takes over to send the snow flying through the crank-type adjustable chute. Clears a 24" wide path. The enclosed gear transmission has 2 forward and 2 reverse gears in high or low-range speeds that are easily controlled from the panel on handle. Adjustable scraper blade lets you get as close to the ground surface as you wish. Adjustable skids reverse for icy conditions. 4-U.S. quart gas tank and recoil starter with provision for electric starter (see item 2 below). 1¼" diam. handles are 16-gauge bright zinc-plated steel tubing. 12" x 3" pneumatic tires. Smart Red Black finish. Guaranteed 1 year.

Our Comparative Pricing Policy
Designed to protect our customers

All price comparisons refer to prices **within the preceding twelve months.** We publish separate catalogues for different geographic zones to fairly equalize the cost of merchandise distribution.

VALUE means that we have offered in a previous catalogue in your zone an item of identical quality, differing only in color, pattern, style or aesthetic design

COMPARABLE QUALITY does not refer to any former catalogue price of Simpsons-Sears but means that we believe the item to be equal in quality to similar items generally available within the preceding twelve months. However, we cannot take into account pricing of similar items in every community

You always get the lowest catalogue price

For example, if you order an item for $5, and the same item appears in another current catalogue (in your

SIMPSONS-SEARS LIMITED CREDIT ACCOUNT AGREEMENT

To: SIMPSONS-SEARS LIMITED **Account No** _____

In consideration of my being permitted to purchase merchandise on a Simpsons Sears Credit Account, I hereby agree to **the following terms and conditions:**

(1) I will receive a monthly statement showing purchases made, and I may pay the balance shown on this statement within thirty days of billing date with no credit charge added. (2) I may elect to make payment on a monthly basis beyond such thirty-day period in which event I agree to pay such monthly amount, plus credit charge as shall be specified and required by the All Purpose and or Special Terms Account terms as outlined in the account brochure (50360) or "Credit Details" page as set out elsewhere in Simpsons-Sears current catalogue forming a part of this agreement together with such terms as are set out below, which I have read, or such other terms current from time to time and communicated to me, it being understood that all monthly payments made by me shall be applied firstly on account of credit charges (if any) and secondly on account of the purchase price of the merchandise in order of purchase. (3) Until full payment is made, I agree that title to and right of possession of the merchandise shall remain in you, that I will not sell, remove or encumber the same without your written consent, that I assume and shall be responsible for all loss or damage to said merchandise and that upon the default of any payment or payments, or the sale, removal or encumbrance of the merchandise without your written consent you may, at your option, hold me liable for immediate payment of the unpaid balance of my account, or take back the merchandise and retain, as compensation for use and depreciation thereon, any payments theretofore made by me without prejudice to my liability to pay for any such merchandise as is not retaken by you, and hold me liable for any balance on the account. (4) All purchases made by me or in my name shall be subject to the terms of this agreement which shall be deemed to be part of each bill of sale identified by the All Purpose and or Special Terms Account number herein contained, which account number shall be subject to change at any time upon notice to me. All purchases shall be subject to the approval of the Customer Accounts Department of Simpsons-Sears Limited. (5) If an All Purpose Account I agree that no notice of termination of this agreement shall be effective until the All Purpose Account identification in my possession has been returned to the Manager, Customer Accounts Department, Simpsons-Sears Limited or he has received notification in writing of its loss or theft. (6) I agree that Simpsons-Sears Limited can terminate this agreement at any time upon written notice to me, but such termination shall not affect my obligation to you to pay the balance of my account.

I understand that the balance shown on my first statement determines the minimum payment. The payment will remain the same except when an additional purchase increases the balance to an amount which calls for a higher payment. A credit charge will be added to my account each month based on my previous month's balance as follows: 19.2% per annum (1.6% per month) on my monthly balance up to $500, and 13.2% per annum (1.1% per month) on any part of my monthly balance over $500 **as follows:**

The buyers and engineers of Simpsons-Sears Ltd. agree that any digital clock radio that can be sold in Canada for less than 38.00 is of very questionable quality . . . however great it may happen to look! They go even further to say that they wouldn't even consider buying one for themselves.
